

## Cities of the World Project

Cities are large urban areas where many people live. Cities normally have a diverse population with people from all over the world speaking many different languages and having different customs and cultures.

For your final project, you will give a presentation on a city of the world. Write a **paper** (at least **500** words) and create a **PPT** to present to the class and your parents. The presentation should last at least 5 minutes.

Things you should include in your presentation are:

**Location:** Where is this city

**Population:** Number of people living in the city

**Diversity:** What kind of people live in the city

**History:** What is the cities background

**Landmarks:** What is famous in the city

**Unique Points:** What is different about this city from other cities

City I will present on: \_\_\_\_\_

What do you know about this city?
